Information about the revolving Inlet (swivel hose nozzle) manufactured by HOMECO

Elbow alloy according to ASTM B179

Brass alloys based on UNS 37000

Lubricant based on EN377

Gas resistance rubber parts based on EN549

Strainer to prevent the entry of Construction waste and ... into the fuel network

Hose fit according to BS3212

O-ring Design with Highest Efficient Based on International Handbooks

RPM test

Tensile Release Testing for Lock Mechanism

Repeat test Fault resistance of lock mechanism

Test of leakage of parts as 100%

Test the gas path open as 100%

Produce for all kind of thread is possible.
